## Save Fuel Wisely

Saving fuel is working hand in hand with the Government these days. And one way to save wisely and well is to use SO-CO-NY—the quality gasoline. It means minimum consumption and maximum power.

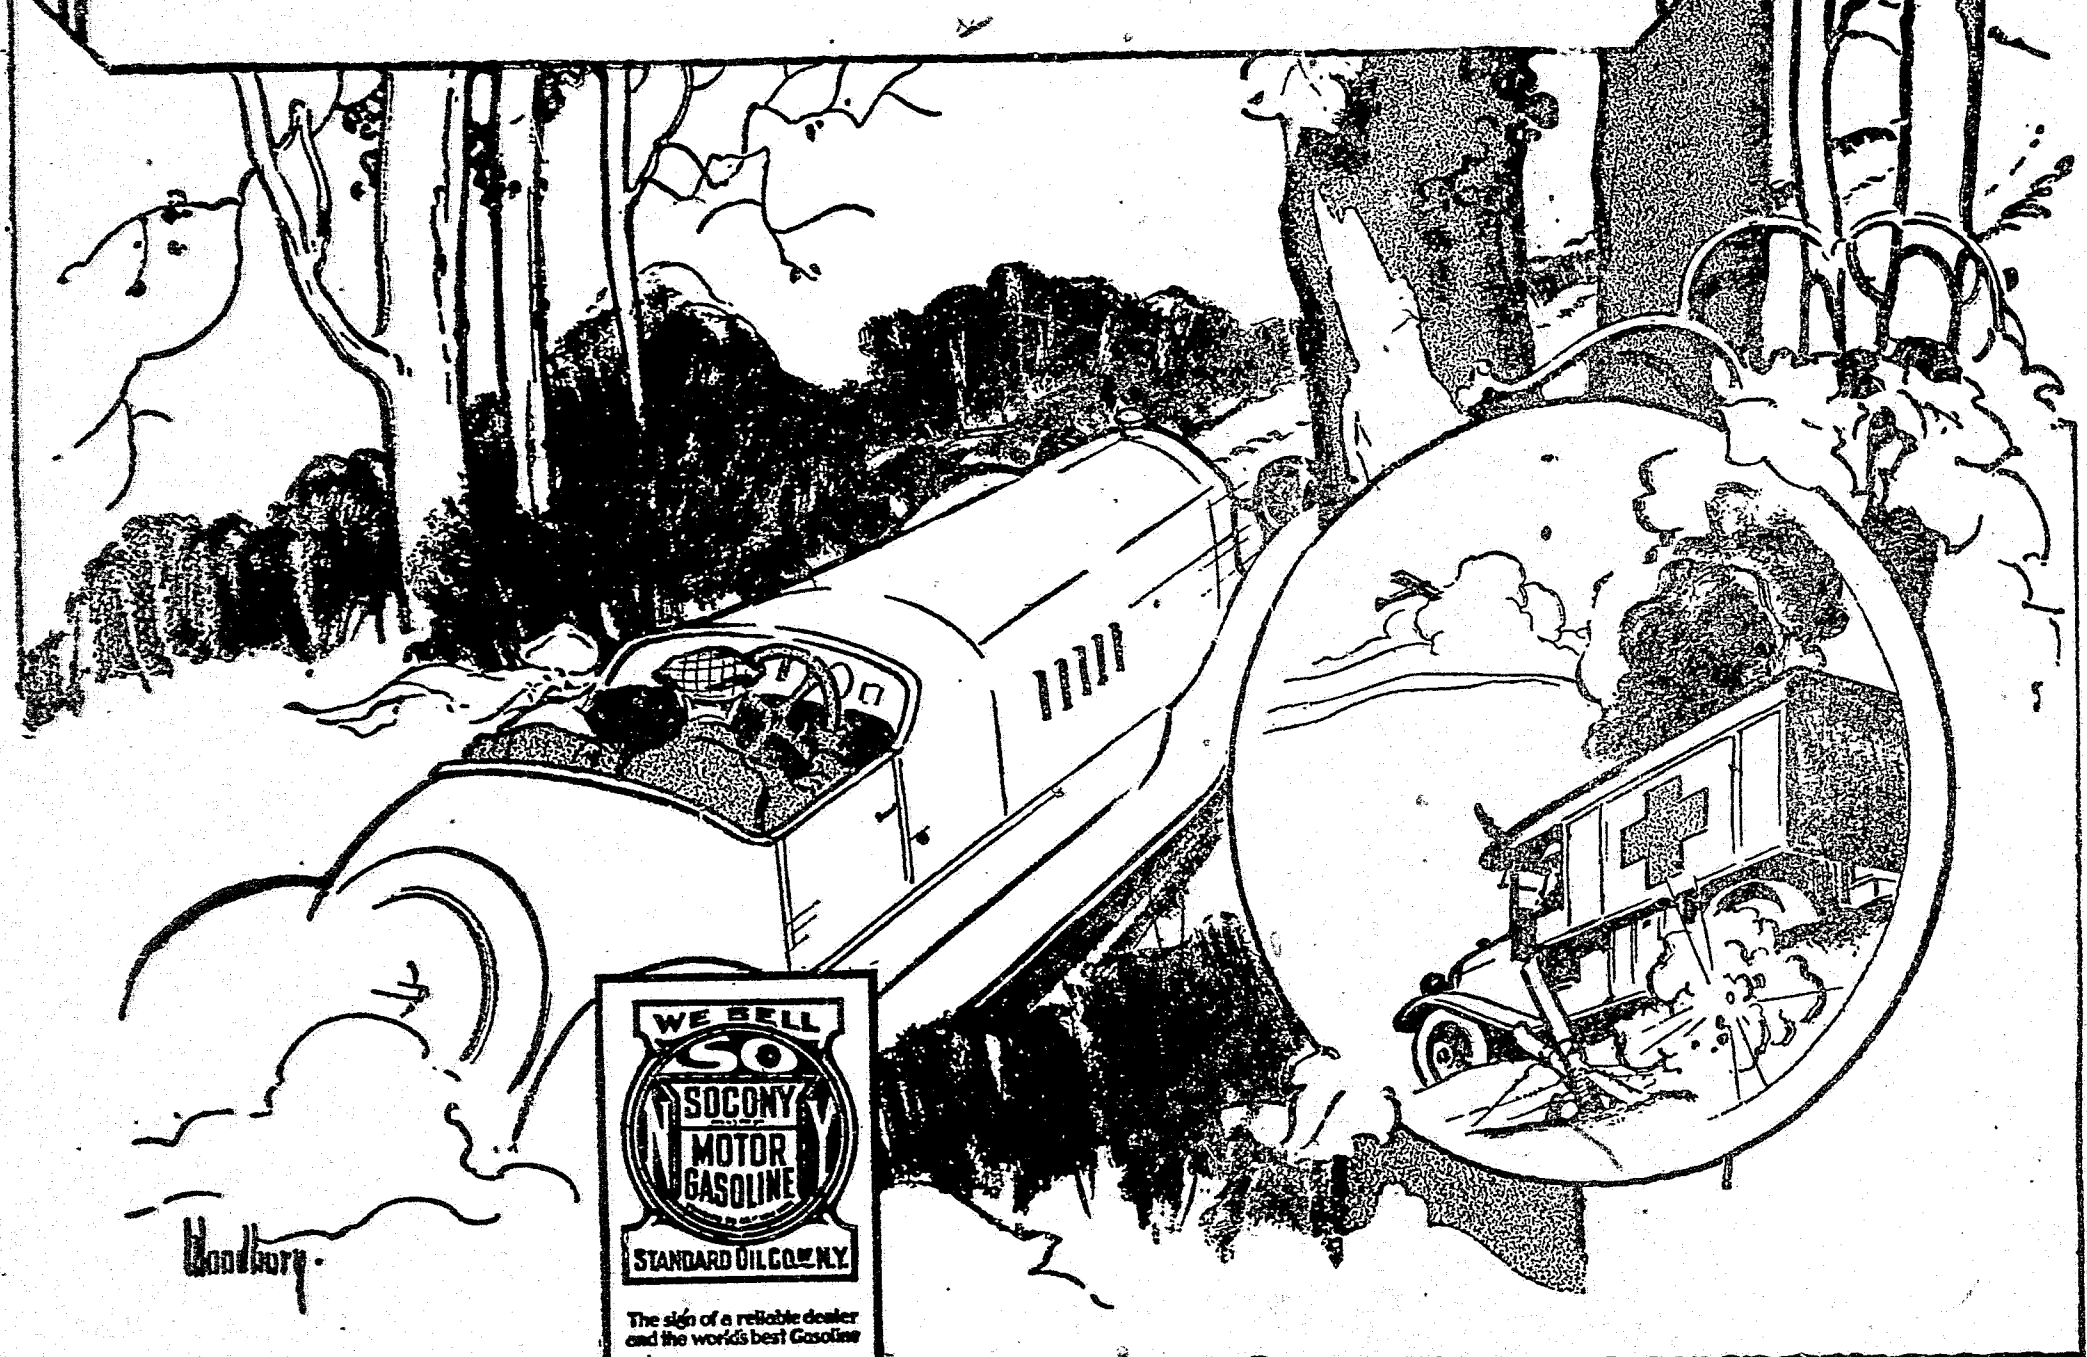

Inferior, low-grade mixtures mean waste in the form of increased consumption, lost power and excessive carbon deposits.

There's power in every drop of SO-CO-NY. It's clean, quick starting; reliable; obtainable everywhere.

Look for the Red, White and Blue SO-CO-NY Sign. It's the wise way to save fuel.

### REGISTER JUNE 5

The law has been passed requiring men who have become twenty-one years of age since June 5, 1917 to register under the Draft. The President has set June 5th, 1918 as the day on which they shall so register.

They are required to register before the Local Board. Accordingly the Local Board for Oxford County has divided this district into four sections which seems the best geographical division that could be made considering that the number of registrars is limited to secure a minimum expense to the Government and also considering the question of travel and expense to the registrars.

Men living in the following towns will register at Rumford at the Municipal Building: Rumford, Mexico, Dixfield, Byron, Roxbury, Peru, Andover, Canton, Hartford and Milton Plantation.

Men living in the following towns will register at Bethel at the Law Office of H. H. Hastings: Bethel, Greenbush, Greenwood, Newry, Grafton, Upton, Hanover, Gilead, Magalloway Plantation and Lincoln Plantation.

Men living in the following towns will register at Local Board Headquarters at Court House, South Paris, Paris, Woodstock, Sumner, Buckfield, Hebron, Norway, Waterford, Stoneham and Oxford.

Men living in the following towns will register at Fryeburg at the Fryeburg Village Fire Corporation Building: Fryeburg, Lovell, Stow, Denmark, Brownfield, Hiram, Porter and Sweden.

The registration offices will be open from 7 a. m. to 9 p. m.

#### Norway High Up to Standard

Supt. True C. Morrill has received a communication from Augustus O. Thomas, State Superintendent, in which he says, "The representatives of the Maine Colleges in conjunction with this department recently reviewed the first semester records of students entering Bates, Bowdoin and the University of Maine, from the Maine secondary schools. We found that the record of students from the Norway High School was of exceptional merit in all respects. I am voicing the wishes of the college representatives in expressing my appreciation for the excellent work which graduates of your school have done during their first semester's work in college. Unfortunately, we did not have the report from Colby College. I have no doubt, however, that any of your students who may have been in attendance there have done equally as well."

A certificate has been received by the local board placing Norway High in the first class of secondary schools. Graduates will be accepted without examination in our prominent eastern colleges upon the recommendation of the Norway school board.

#### High School Notes

Wednesday afternoon N. H. S. met at Mechanic Falls High on the fair grounds. At the end of the ninth inning the score was 4-4. After playing one more inning the final score was 6-5 in favor of the visiting team. There was a good crowd of girls at this game to cheer. Every one should come to the games and support your home team!

The music for the dance records was furnished by an orchestra of twenty picked musicians, several of whom have toured the United States with Sousa's Band. The records made were Lancers Quadrille, Final Quadrille and two contra dances. John was gone ten days and enjoyed the trip of his life.

### A MIXTURE OR A RETROSPECT

By Mrs. Sarah E. Bates Barlett, Norway  
First I want to say I am not an invalid, neither have the years that have come and gone made me a wreck; but I am an old lady going on eighty-nine years of age. As I sit by my window alone my room today, I enjoy the beautiful sunshine, the lovely springtime of birds and flowers. The robins have built their little nests in the shade tree nearby, and the apple trees are blossomed out. This reminds me that the same good and gracious One is still watching over us all. It is not possible for us to "grow old gracefully" in our own strength—most of my sisters will say "amen" to that—I should like to say a good deal more on this subject but I must hasten on.

In these active, eager days, we should decide with caution. This word "Mixture" as used in part for a title to a few more lines of my little sketch, has a great meaning in these days, I think. If we go to the store to buy a few pounds of flour we must also buy two or three pounds of some other grain to mix with the flour. Now this "bread" thing for me, for I remember very well of mixing brown bread in a "bread trough" to bake on the bottom of the old brick oven. Other things were mixed in the old days, long, long ago. This bread of life, now this "bread" of the old brick oven had a most delicious taste. The old crane pot, so often hung on the crane filled with "bean porridge" seemed to give satisfaction to every one. In the family then, where I lived there were twelve boys and girls, men and women, for the father and mother were very old people, and wanted to keep up the same old fashioned way of cooking and mixing and saving the fragments that nothing be lost. Well, this way of life was only following the example of our dear Lord and Saviour, who said, "Gather up the fragments that nothing be lost."

You can read it in the Bible, John, 6th chapter, "I am the living bread which came down from heaven." "May we so decide that we may secure that Bread of Life."

The convention opened at 2 o'clock with a prayer by Rev. Lucius Merriam and Mrs. Ella A. Wright read the minutes of the morning session, which were approved.

Jennie R. Bates presented an instructive paper on "Youth" which was an earnest appeal to parents and teachers for greater effort toward improving upon the receptive minds of our young people the necessity of clean living. She emphasized a cheerful personality which would leave the shadow of care and worry wherever she passed. The president's message was a careful review of the situation in the County during the past year with an appeal for greater effort along temperance lines.

After Mrs. Annie M. Nichols conducted a touching prayer for the members in the Union who have passed beyond since the last county meeting. Mrs. D. L. Joslin, Norway, with Mrs. Susan Craigie accompanist, gave a solo.

Wing to the absence of Mrs. Effie M. Lawrence, Mrs. Bates and Mrs. Elizabeth W. Morton, South Paris, conducted the Children's Hour. A large number from the grades under the charge of Elizabeth McCreey marched in and gave several songs, including "Star Spangled Banner" and "The Battle Hymn of America."

She has handled fruit several years but this is only the second one they have noticed.

### A LETTER FROM AUTHOR

The following letter was written to Mrs. Charles A. Stephens of Norway Lake by Mildred Aldrich of Hurley, France. Miss Aldrich is the author of one of the books which Mrs. Stephens has donated to the Norway Public Library: April 19, 1918.  
Dear Minnie Sear—For that is the way I always think of you—and I was glad to see your handwriting again. I recognized it at once. I had to laugh at the idea that I would no longer be interested in you because "vous n'etiez plus artiste." (You were no longer an artist.) You see, to my way of thinking, the artist's life is almost sterile. At the best, it is short, and it is such a bitter struggle I never envied any one, not even the greatest, and I never saw any one I liked, quit it, without drawing a long breath of relief. And when the moment comes that I could turn my back on all that world, so many broken hearts, so many fine natures disillusioned, I can assure you that I do not hesitate. Perhaps I could not have done it while I was young, I don't know. But this is sure—in spite of all I have lived through since I left, for one moment, have regretted it. Only think of it—I have not heard an opera, nor been inside a theatre for nearly seven years.

Tell Dr. Stephens that I never did attend a medical school. The nearest I ever came to that was to take a scientific laboratory course at the Institute of Technology—the Lowell Institute Course—in 1873, under, if I remember, Prof. Nichols. I doubt very much if your doctor is old enough to have seen me there, and also it is twenty years since I left the States.

I loved the picture of The Laboratory and I tried to look up Norway Lake, but could not find it on any Atlas I possess, in my possession is Osgood's, dated 1873, isn't that ridiculous? I really felt humiliated that I could, in some way, locate any old place in Siberia or Central Africa and can't find the home of a friend living in the state in which my dear mother was born and in which I used to spend my summers. So you must tell me all about it and feel that you are enlightening the heathenish ignorance of a country woman acting as a missionary, in fact.

I should have answered your letter in these days of extraordinary circumstances, but in these days letters do not reach here as always take a month to reach here in your arrival in February, when the German efforts of "frightfulness," which preceded the opening of the terrible battle which has been raging for a month, were in full force, and the vain hope of lowering the morale of all of us civilians behind the line. So for the past three months I have felt in little-mood to write letters. On the 30th of January I stood four hours in the night listening to an invisible battle in the air over Paris, and from that time until last Friday, I went through three air raids in Paris and three here, in one of which 30 bombs fell in our department. In addition to that we hear every coup of that cannon de long range (long range), which has been bombarding Paris since March 24. Twice in that time I have had to go through the zone bombarded—once to take three little orphan boys to an asile, and once to carry a sick woman to a hospital in the city of Paris. You, who know Paris and the French at this crisis, tell me what it is like today. The city looks different, of course. The streets are no longer crowded, though they are not empty. Children are still playing on the Champ-Elysees, cabs still rush along. In fact, life is almost normal. Yet the long distance cannon has been firing, reached almost every quarter of the city from the street where my favorite newspaper comes out to the street where you used to come to see me, and from the French at this crisis, tell me what it is like today. ## REGISTER JUNE 5

The law has been passed requiring men who have become twenty-one years of age since June 5, 1917 to register under the Draft. The President has set June 5th, 1918 as the day on which they shall so register. They are required to register before the Local Board. According to the Local Board for Oxford County has divided this district into four sections which seems the best geographical division that could be made considering that the number of registrars is limited to secure a minimum expense to the Government and also considering the question of travel and expense to the registrant.

Men living in the following towns will register at Rumford at the Municipal Building: Rumford, Mexico, Dixfield, Byfield, Fryburg, Fryburg, Canton, Hartford and Milton Plantation.

Men living in the following towns will register at Bethel at Law Office of H. H. Hastings: Bethel, Mason, Albany, Greenwood, Newry, Grafton, Lynton, Hanover, Gilead, Magalloway Plantation and Lincoln Plantation.

Men living in the following towns will register at Local Board Headquarters at Court House, South Paris: Paris, Woodstock, Sumner, Dixfield, Fryburg, North Waterford, Stoneham and Oxford.

Men living in the following towns will register at Fryburg at the Fryburg Village Fire Corporation Building: Fryburg, Lovell, Stow, Denmark, Brownfield, Hiram, Porter and Sweden. The registration offices will be open from 7 a. m. to 9 p. m.

If the mother would have her children susceptible of training, let her make her own life what it should be. Let pure and holy thoughts fill her mind; grand and noble deeds enter into her life; just as surely as "like produces like" in the vegetable kingdom, will the life of the mother be reflected in that of her child.

### Norway High Up to Standard

Supt. True C. Morrill has received a communication from Augustus O. Thom, as, State Superintendent, in which he says, "The representatives of the Maine Colleges in conjunction with this department recently reviewed the first semester records of students entering Bates, Bowdoin and the University of Maine, from the Maine secondary schools. We found that the record of students from the Norway High School was of exceptional merit in all respects. I am voiding the wishes of the college representatives in expressing my appreciation for the excellent work which graduates of your school have done during their first semester's work in college. Unfortunately, we did not have the report from Colby College. I have no doubt, however, that any of your students who may have been in attendance there have done equally as well."

A certificate has been received by the local board placing Norway High in the first class of secondary schools. Graduates will be accepted without examination on their prominent eastern colleges upon the recommendation of the Norway school board.

### High School Notes

On Friday, May 17, the students of N. H. S. enjoyed a most welcome holiday in order that all the high school teachers might attend the convention held in this town.

Wednesday afternoon N. H. S. met Mechanic Falls High on the fair grounds. At the end of the ninth inning the score was 4-4. ### Enjoys Trip to New York

John H. Haselton of Norway and Westbrook has just returned from New York, where he went to make dance records for the Columbia Graphophone Co. John went by the famous Cape Cod Canal route, and saw New York from Long Island Sound and the East River, and by courtesy of the Graphophone people, from the tower of the Woolworth Building, which by the way is 795 feet and is the tallest building in the world. The music for the dance records was furnished by an orchestra of twenty picked musicians, several of whom have toured the United States and Europe with Sousa's Band. The records made were Lancers Quadrille, Plain Quadrille and two contra dances. John was gone ten days and enjoyed the trip of his life.

## A MIXTURE OR A RETROSPECT

By Mrs. Sarah E. Bates Bartlett, Norway  
First I want to say I am not an invalid, neither have the years that have come and gone made me a wreck; but I am an old lady going on eighty-nine years of age. As I sit by my window alone in my room, I enjoy the beauty of the sunshine, the lovely springtime of birds and flowers. The robins have built their little nests in the shade tree nearby, and the apple trees are blossomed out. This reminds me that the same good and beautiful life is still watching over us all. It is not possible for us to "grow old gracefully" in our own strength—most of my sisters will say "amen" to that—I should like to say a good deal more on this subject but I must hasten on. In these latter days, we should decide with caution. This word "Mixture" as used in part for a title, has a great meaning in these days, this word of yours has led me to reach here, a few pounds of flour we must also buy two or three pounds of some other grain to mix with the flour. Now this is no new thing for me, for I remember very well how I used to bake on the bottom of a mixing bowl. Other things were mixed up in the olden days, long ago. This bread and other things baked in the old brick oven had a most delicious taste. The old corn hung over the fire seemed to give satisfaction to every one. In the family then, where I lived, there were twelve boys and girls, men and women, for the father and mother were very old people and wanted to keep up the same old fashioned way of cooking and mixing and saving the fragments "that nothing be lost." Well, this way of doing work was only following the example of our dear Lord and Saviour, who said "Gather up the fragments that nothing be lost."

You can read it in the Bible, John, 6th chapter, "I am the living bread which came down from heaven." "May we so decide that we may secure that Bread of Life."

## Oxford County W. C. T. U.

The thirty-first annual convention of Oxford County Women's Christian Temperance Union opened Wednesday morning at the Norway Baptist church and continued until Thursday afternoon, with the following county officers present:

Pres.—Mrs. Susie E. Chapman, South Paris. Sec.—Mrs. Elizabeth Rose Pitts, Harrison. Cor. Sec.—Mrs. Anna W. White, West Paris. Rec. Sec.—Mrs. Ella A. Wright, South Paris. Treas.—Mrs. Nellie E. Foss, South Paris. Auditor.—Mrs. Ingene Sweet, South Paris. Chairman Entertainment Com.—Mrs. Harriet M. Bates, Norway.

County President Mrs. Susie E. Chapman presided at the session which opened at 10:30. The devotional service was led by Mrs. Annie M. Nichols, Norway, after which the convention was called to order by Mrs. Elizabeth Rose Pitts of Harrison. Praise and Roll Call, Mrs. Lucella Merriam, Norway, delivered the address of welcome and Mrs. Ida B. Thoms, Hartford, responded. Committees were appointed and other business transacted. The records made were Lancers Quadrille, Plain Quadrille and two contra dances. John was gone ten days and enjoyed the trip of his life.

The convention opened at 2 o'clock with a prayer by Mrs. Lucella Merriam and Mrs. Ella A. Wright read the minutes of the morning session, which were approved.

Jennie R. Bates presented an instructive paper on "Our Youth" which was an earnest appeal to parents and teachers for greater effort toward improving the character of the young people of the county. She emphasized a cheerful personality which would leave a lasting impression for good wherever the shadow fell.

The president's address was carefully reviewed and the situation in the County during the past year with an appeal for greater effort along temperance lines.

Mrs. Annie M. Nichols conducted a touching memorial service to the members of the Union who have died since the last county meeting. Mrs. D. L. Joslin, Norway, with Mrs. Susan Craigin accompanist, gave a solo. Owing to the absence of Mrs. Elsie M. Lawrence, Jennie Bates and Mrs. Lewiston W. Morton, South Paris, conducted the Children's Hour. A large number from the grades under the charge of Elizabeth McCreary marched in and gave several songs, including "Star Spangled Banner" and "The Star-Spangled Banner" which had given previously. Two dialect readings pleased all with a humorous selection after the type of a Southern mammy.

The evening session was opened by Rev. W. H. Nichols, Norway Methodist church, and the prayer offered by Rev. M. O. Balzer, Norway Congregational church, was answered by Berenice Nash and Marjorie Barker, Genevieve Barker, accompanist.

"Where Do We Go from Here?" was the subject of the inspirational address by Mrs. Elsie M. Lawrence, South Paris. It was a strong plea for national prohibition especially as a war measure. Her extensive travels through Germany in quest of facts for ammunition against the subtle opposition in America in favoring the liquor traffic, were the basis of her address upon which she displayed the evils from the use of alcoholic beverages. Especially was a strong appeal made to the mothers whose sons have joined the colors, to support the boys in their efforts to preserve the boys from a class who would ruin both soul and body for the sake of a few ill gotten dollars. The fact that the brewers have hoarded a five months supply of wheat, barley, corn and sugar while the householder cannot have a but, twenty-four pounds of wheat flour and sugar in a limited quantities was attacked with a broadside, exposing the ridiculous situation in no uncertain manner.

The meeting Thursday morning included a praise and testimony service led by Mrs. M. O. Balzer, Norway; an address "How it Works" by Mrs. Isabel C. Fish, Santa Barbara, Cal. In the afternoon Mrs. Mabel Perry, Paris, demonstrated with several pupils from the Paris schools her subject "Temperance Essay Work" and Mrs. Ruth Moorehouse gave several popular readings.

Word has been received that Mrs. Mary Lovell, formerly of Norway, who has been in Red Cross service, and is located at the hospital in Michigan, has been stricken with paralytic shock, caused probably from overwork and has been extremely busy at the hospital.

## A LETTER FROM AUTHOR

The following letter was written to Mrs. Charles A. Stephens of Norway, Lake by Mildred Aldrich of Hairy, France. Miss Aldrich is the author of one of the books which Stephens has donated to the Norway Public Library: April 19, 1918.

Dear Minnie Sealer—For that is the way I always think of you—and I was glad to see your handwriting again. I recognized it at once. I had to laugh at the idea that I would no longer be interested in you because "vous n'etiez plus artiste." (You were no longer an artist.) You see, to my way of thinking, the artist's life is almost sterile. At the best, it is short, and it is such a bitter struggle I never envied any one; not even the greatest, and I never saw any one I liked, it without drawing a long breath of relief. And when the moment came that I could turn my back on all that world, which I had seen so much suffering; so many broken hearts, so many fine natures, disillusioned, I can assure you that I did not hesitate. Perhaps I could not have done it while I was young, but now, having lived through since I never, for one moment, have regretted it. Only think of it—I have not heard an opera, nor been inside a theatre for nearly seven years.

Tell Dr. Stephens that I never did give a medical school. The nearest I ever came to that was to take a scientific laboratory course at the Institute of Technology—the Lowell Institute course. In 1873, under, if I remember, Prof. Nicholas, I did not very much if your doctor is I doubt to have seen me there, and also it is twenty years since I left the States.

I loved the picture of The Laboratory and I tried to look up Norway Lake, but I could not find it on any Atlas I possess, and the only book on New England in my possession is Osgood's, dated 1873. Isn't that ridiculous? I really felt humiliated that I could not find it. I have been old now in Siberia or Central Africa and can't find the home of a friend living in the state in which my dear mother was born and in which I used to spend my summers. So you must take all about it and that is the enlightening the bestish ignorance of a country woman acting as a missionary, in fact.

I should have answered your letter instantly under ordinary circumstances, but in these days letters from the States are always a month to reach here and yours arrived in February, when the German efforts of "frightfulness," which preceded the opening of the terrible battle which has been raging for a month, were in full force, in their vain hope of lowering the morale of all of us civilians behind the line. So for the past three months I have felt in little mood to write letters. On the 30th of January I stood four hours in the night listening to the invisible battle of the air over Paris, and from that time until last Friday, I went through three air raids in Paris and three here, in one of which 30 bombs fell in our department. In addition to that we hear every coup of that cannon, the long-range gun, which has been hammering Paris since March 24. Twice in that time I have had to go through the zone bombarded—once to take three little orphan boys to an asylum and once to carry a sick woman to a hospital at the foot of Paris, you know Paris and the French, do not need to be told what it is like there today. The city looks different, of course. The streets are no longer crowded, though they are not empty. Children are still rushing along. In fact, life is absolutely normal. Yet that long distance cannon has, first and last, reached almost every quarter of the city from the street to the street where newspapers come out to the street where you used to come to see me, and from the church where I used always to go in Holy Week to hear Gregorian chants, to streets where I used to go shopping.

I take more than that, but the number of killed is often numerous—and even now it is too many—to break the morale of the French at this stage of the game. It is not pleasant, I own that. When I went through the first time, I have drawn a long breath of relief. I have no one, so far as I can see, from risking it. We are all fatalists today.

The last month has been the hardest of all. History never saw such a battle as the one we are living through now. But though the suspense of each 24 hours is terrible, the normal work of life goes on here as calmly as far as the eyes can see. One only guesses what is in the minds of the others by what is in the air. Besides I am far from well—a hereditary habit, high blood pressure, of which I never took notice, became too insistent, and my life of calm became necessary. I sought rest. I was forbidden excitement, strong emotions, and any kind of stimulation. The situation has been easy and just the emotions, well, it is to laugh, "et voilà."

I cannot tell you how often I have thought of you and hoped you were happy. And remembering how ardent your ambitions were, feared to ask you.

I am glad you enjoyed the books. They are my contribution to the propaganda, and my one satisfaction is that they served their purpose. There is another one due this year. This act of the awful drama closes, if I live to finish it.

Greet your doctor for me and think of me always as your affectionate friend, MILDRED ALDRICH.

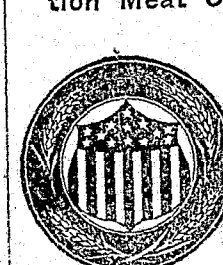

To the kicker: "If you must kick, kick forward like a man, not backward like a mule."

Any fool may criticize. But criticism is not a remedy; that requires constructive ability. So unless you possess this, better hold your tongue and saw wood."

The familiar restaurant order of "ham and—" is very appropriate these days. There's nothing doing after the "and."

## FARMERS HAVE WONDERFUL OPPORTUNITY FOR SERVICE

Maine Farmers Called Upon to Cultivate Large Acreage Food Crops—Food Administration Urges Reduction Meat Consumption.

Orono, Maine, May 24—No people in the history of the world have had such an opportunity for service as American farmers have today. All most half the people in the world are hungry. The Allies are dying and suffering because of the lack of food. Women are starving; children are sweet and pure as our own children, are dropping by the wayside because of lack of food; strong men are falling out of the struggle for existence because they have not food.

America is the greatest food producing nation on earth. Because of the shipping difficulties arising from the destruction of tonnage by submarines, the Allies and the neutral countries of Europe are depending on us to supply them with all foodstuffs required above their own limited production.

Every farmer in Maine and in America is called upon to cultivate the largest acreage in food crops he possibly can. He is called upon to increase his production per acre to the utmost pound.

Produce and save everything! Waste nothing! The food or food product that is wasted in Maine deprives a soldier or woman or child in Europe. Every pound saved or produced helps to sustain a soldier in the field or to prevent a woman or child in Europe perishing from starvation.

## GERMAN PRISONERS.

The treatment of interned Germans in the United States is now being used by German propagandists in an effort to create unrest among the American people. The Food Administration, however, officially denies rumors that German prisoners are being prodigally fed on bread, pastries and cakes made entirely of wheat. The Germans interned in American detention camps while well fed, are being made to observe all rules and regulations of the Food Administration.

The military prisoners—prisoners of war—receive the regular garrison ration of the United States Army. This is according to the Hague Convention.

## MEAT CONSUMPTION.

The United States Food Administration is extremely desirous of securing voluntary reduction in meat consumption for the purpose of providing sufficient supplies for the army and Allies and thus avoid reintroduction of the meatless days.

There is now a seasonal shortage of meat and the shipment of live stock to the market will steadily decline for the next few months, making it imperative that conservation measures be taken if the needs of the army and the Allies are to be met.

The necessities for shipment abroad to our army and our Allies are very large and amount to roughly 75,000,000 pounds of meat and meat products of all kinds per week against pre-war normal of less than 15,000,000 pounds.

## HALF SICK, HALF WELL

A Condition That Will Not Improve Upon Itself.

In the Spring the depressing condition that many call spring fever often runs through families and neighborhoods.

This indefinite, hard-to-describe state of poor health probably means that you are thin-blooded and anemic. Exhausted thin blood gets thinner; the low vitality falls lower, poor appetite becomes poorer. Then the thoroughly exhausted system can no longer resist, and on comes the prostrating illness or serious disease.

Treat the half-sick, Spring-tired condition with that splendid course of medicine—Hood's Sarsaparilla, to fortify the whole body; Pepsin, to ironize and make rich red blood; Hood's Pills to rouse the liver to its regular daily duties—and the half-well revives to perfect health.

Have you ever tried this potent combination of Spring medicines? Each is valuable in itself but is trebly so when used in this combination as a regular course of treatment.

The \$1,000 suit instituted by James Caliendo against Deputy Sheriff L. L. Niles, to recover in the sum of \$1,000 for alleged injuries received by Caliendo in a little affair started when the deputy searched his car recently on the Virginia road without a warrant has been settled out of court.

The case of Charles Levin, former of the firm of Levin and Senter, a John Orino, to recover several thousands for damages alleged to have been received by stock in the Levin and Senter store in the block owned by Mr. Orino, when water from the roof flooded the store the past year has been marked from the docket. Mr. Levin cannot obtain a leave of absence from Camp Devens, where he recently went, to present at this term of court.

Naturalists papers have been granted to Mike Kizel, Dennis Breton, Alexander J. Kilbs, Joseph Lukanskis, Frank Pakstis, Kazameras Mazlauskis, Philippe Frazer, Adam Clark, Ovid Cantin, Felix Pazmenas, Alex O. Petrie, Docette Theriault, Minas Ralides, Einar Sorensen, David Berryman, James Barnes, Henry D. Begin, Editha Bragali, John Peter, Magroger, Anton Jasse.

The intoxication case against Freedom Bede of Mexico was not pressed by request of County Attorney Fred Dyer. In the illegal transportation cases against Joseph Martell and Clarence Crawford and James V. Carney and Joseph Martell, it was claimed that fair trial could not be given as Martell, the principal in both cases, is now in France.

Lucy Richards, charged with adultery, was allowed a continuance of her case and was put in charge of a probation officer.

Mrs. Lizkie Wheeler, charged with forgery was found guilty by the jury and was taken to the reformatory for women at Shawhegan Saturday, in care of Deputy Sheriff L. L. Niles.

Joseph LaPoint, who pleaded not guilty of adultery, was given a continuance of his case and was placed on probation on his own recognizance.

In the case of Charles F. Morse of Norway, indicted for bigamy, a continuance was entered, and he was released on his own recognizance. It is presented on behalf of Morse that he believed his wife to have procured a divorce when contracted marriage with another woman.

In the case of Peter LeClair, who on Saturday was found not guilty on a charge of receiving money from women which had been earned by prostitution, was given a trial Tuesday on the charge of maintaining a house of ill fame. The jury returned with a verdict of guilty.

George Savoy, who was given a trial Monday on a charge of maintaining a gambling nuisance in his house, was found guilty and fine \$100, which he paid.

The cases of John Padruskis and Mike Pilasuskis, arrested April 27 by Deputy Sheriff Philip Lessard and L. L. Niles, and charged with illegal transportation and intoxication, were heard Tuesday. Both were found guilty in the municipal court of intoxication and fined \$3 and costs, and were bound over on the charge of illegal transportation. But, failing to obtain bonds, they went to jail, and at the same time were serving a time sentence for the intoxication charge, instead of paying the fine. In supreme court, Tuesday on the charge of illegal transportation, Padruskis was found not guilty and the case against Pilasuskis was not pressed, and since this verdict both have settled up on the fine for intoxication, and are now discharged.

### A WOMAN'S QUESTION

(Written by Ethel E. Thomas of Woodford, formerly of South Paris)

Though the lords of creation, By acclamation, Shall straightway vote to put me 'neath the ban, By the pine knot turning,

Keep the home fires burning, I'm doing every day the best I can.

And I'd like to ask a question And to make a slight suggestion, That shall make the people think throughout the land,

Though being only a woman, And strictly human, Of course I can't expect to understand Why with eternal slamming,

And universal damning, From Governor to President no word of praise I hear.

Are they all like the Kaiser, That you must be a miser, And hoard up with sugar, your every word of cheer?

With history's page before me, And war clouds hovering o'er me, Alone, maligned, and sorrow-crowned, I see our Lincoln's head.

Let this wholesome denunciation Shall end with assassination, And leave a few of the bitter things unsaid!

The folks who are always clamoring, And railing, having famer's war, may get enough of it before this war is done.

It is quite a different matter, And they didn't care a tatter, When 'twas the other fellow's money and the other fellow's son.

We must work and fight together, Not minding wind or weather, For the saving of a principle and the quelling of a beast.

It is not that "boys" that's criticizing— And you just get to energizing, For the pig that does the squealing is the one that roots the least.

It is a task stupendous, Requiring brains tremendous, To run this mighty Nation in its details, they will find.

And they might ask Mrs. Hoover, And thus a helmsman prove her, To get a hearty breakfast of the "wheatless," meatless" kind.

For we're going to keep on fighting, Until Liberty is lighting, The world, and it is "safe for Democracy"

To live is universal, And unto ships commercial, Protection and the right of way, the mighty sea can give.

Boys' Certificate of Patriotism

The boys whose home is on the farm is likely to suffer an injustice in years to come if he fails now to procure the testimonial to his patriotism that is freely offered him by Uncle Sam.

There is coming a time when the boys of today will be asked what they are doing to help in the war while their big brothers were fighting in France.

Then the man of tomorrow will show with pride the badge that he won through his membership in the Boys' Working Reserve.

It will be his certificate of patriotism, and Uncle Sam is anxious that the boy who stays at home and works on his father's farm should have his badge as well as the city boy who goes out into the country to help in raising the war time crops.

He is a wise old gentleman, is Uncle Sam, and he knows that the time will come when those badges will be highly prized and the boy who is already on the farm is as much entitled to a badge as will be the boy who volunteers from the city.

But the boy on the farm cannot get a badge unless he enrolls in the United States Boys' Working Reserve. He must enlist in the Reserve and become one of the great army of boys who will fight in the furrows of the field while the bigger boys fight in the trenches.

It costs the boy nothing to enroll. It puts him only to the trouble of signing the card. It does not interfere with his remaining on the home farm. It gives nobody the power to say that he shall leave home.

What it does do is to give him a standing as a recognized worker in his country's cause. It puts him in line to receive the badge which Uncle Sam will give him after he has worked six weeks.

Principals of his school and teachers throughout the state are acting as recruiting agents for the Reserve. They have the enrollment cards for the boys to sign.

### LOCAL CO-OPERATION

We all of us admit the power of co-operation. Two heads are better than one, and granted this we must concede that three heads are better than two and four are better than three.

Each man separately stands for his own individual force; but if a number of men join together for some object, their power in the community increases as each man joins, much more rapidly than his personal force would warrant.

Notwithstanding our knowledge of this fact, it is often hard to secure co-operation in local affairs. True co-operation means giving up one's own preferences, subordinating one's personality, considering the public good as better than one's own.

The man who forgets himself is the most successful in working with other people.

Every man naturally wants the best for his town or village, but the community that achieves the best is the one where the citizens work unselfishly together. In other words, when we refer to the public spirit of a community, we simply mean its capacity for organized and smooth-running co-operation.

### DON'T FORGET!

Don't forget that backyard garden. Don't imagine for a moment that the urge is any less than last year. If anything, there is a more vital necessity that this year every available foot of ground be made to produce food.

Not only is there a scarcity, but transportation difficulties render this shortage more acute in that they make it difficult to transport from one point to another in this country.

So that in the coming season, the community that doesn't raise its own food stuffs may face the impossibility of obtaining them, even though they have the money to pay for them, from the simple reason that the railroads are too overburdened to haul them.

If you raise your living you will be sure of it. If you do not, you at least face the possibility of a scarcity.

Why not be cosmopolitan in our eating? If we use more Scotch oatmeal, Irish potatoes, English barley, Japanese rice and Indian corn, we can send more American wheat to our boys in the trenches.

Roy Snow of Camp Wadsworth at Spartanburg, S. C., has been granted a furlough to come to Maine on account of the serious illness of his mother, Mrs. Alexander Snow. She has been in Portland for medical treatment. He returns South very soon.

Dr. N. C. Thurlow went to Portland Thursday for a few days' visit as the guest of Fred R. Fife.

Word has been received by his relatives of the death of John M. Leadbeater of Camp Wadsworth, Spartanburg, S. C. He had the mumps a while ago and an illness followed the attack. He was the elder son of the late John and Mary (Morrill) Leadbeater of Alexandria, Va., and a grandson of the late Joel E. Morrill of Conway Center, N. H. He was born at the Morrill homestead in Conway Center, N. H., in 1898 and had spent many summers there. Mr. Leadbeater came to Fryeburg last Spring and enlisted in July in the 1st Battalion of the 101st Infantry, and he had remained with these soldiers notwithstanding the many changes that this regiment has had since its organization. He is the State agent of that branch of educational work, Superintendent C. N. Perkins of Waterville, considered in his address. The advantages of the Eight Grade System, and Professor Wilmet B. Mitchell of Bowdoin College, a favorite speaker with the people of Fryeburg, gave a fine address on "The Biggest Thing in the World, Dr. A. O. Thomas, superintendent of the schools of Maine, gave an interesting address which was devoted mostly to the consideration of the world war. The ever present topic of the day, the work of the Red Cross, was not forgotten and the subject was presented by Mrs. A. A. Perry, state superintendent and vice chairman of the Fryeburg local auxiliary of the Red Cross. The severe thunder shower on Friday evening interfered somewhat with the attendance at Dr.

Thomas' address. The various programs were also made more pleasing by excellent music.

Mr. and Mrs. J. Charles Harriman spent a few days in Portland, where Mrs. Harriman is receiving surgical treatment.

Lizzie C. Shirley of Boston, who has been the guest of Anna Barrows for a few days, has returned to her home in the city.

Usher W. Cutts, a former principal of Fryeburg Academy, died very recently and his remains were brought to Fryeburg for burial in the Ward family lot, Pine Grove Cemetery, on Friday afternoon, May 19.

The board of trustees of Fryeburg Academy held their annual meeting in Portland on Saturday, May 11. Judge C. Hale, the acting president, presided at the meeting. Dr. R. P. Chase of Portland, Dr. John Z. Shedd of North Conway, N. H., and Colonel John Stuart Barrows of Boston were elected trustees to fill vacancies in the board. The names were proposed by the alumni association of the academy. Among the trustees present were E. E. Hastings and Albion A. Perry of Fryeburg, James L. Gibson of North Conway, N. H., W. A. Robinson of Arlington, Mass., and William W. Towle of Brookline, Mass., and Judge Clarence Hale of Portland.

### LOVELL

True Patriotism

You all know how Lovell went "over the top" in our last Liberty Loan drive and I think much credit is due G. W. Walker for his untiring efforts to make the drive a grand success. Our allotment as you all know was \$9,100, when the last bond was in we had a grand total of \$27,900. How many of our townsmen have given consideration to the thought that if the United States does not win this war our money invested in bonds and securities will be of little or no value and that we will be little better than serfs, taxes and burdens will be beyond endurance.

A number of our boys have given their lives, hundreds more are offering theirs for our safety and salvation. What are the duties of those who stay at home? Our duty is to back the Government financially by purchasing Thrift Stamps with the coupons from the bonds you have invested in. By so doing you are returning the money back to the Government to help down the Hun. By so doing you are lending your money on the best security that can be offered and further more you are getting paid for so doing. Self sacrifice should be the spirit of the hour. There are lots of ways we can save to buy Thrift stamps. Think it over. Again we should think of the "Boys in uniform", help them by your donations to the Red Cross. Seth F. Heald is treasurer of the Lovell Auxiliary and will be glad of donations to carry on the good work at any time. Then there is the Y. M. C. A. and other funds to give comfort to our boys at the front and in our training camps.

Fellow citizens, let us be 100% loyal, stand squarely behind our government, supporting it in every way during this awful crisis when liberty hangs in the balance. We must win this war and we are going to. The Yankee valor has never lowered its hand to any power. The sword is drawn and it will never be placed in the scabbard until the world is made a decent place to live in. Make it so by purchasing Thrift stamps. You can get them at the postoffice. Marcelus Stearns is chairman of the committee.

G. W. Walker will kindly give information regarding your Liberty bonds and Seth Heald will tell you all about the Red Cross. Citizens awake to the crisis. We who stay at home must play an active part in this campaign.

I love my country of my adoption and will stand behind her until the last. You do the same. Stand by the land that gave you birth. A Citizen.

# Water Powers in Maine

Is it necessary for the advocates of the development of water powers by the State to make sweeping statements which are in a large measure untrue and, clearly misleading in order to maintain their position on the Water Power question?

In the first place the development at Rumford Falls was not an entirely new development, which made the cost lower than it would otherwise have been and in the second place the cost of development at Rumford Falls is not a fair illustration from which to make a comparison, for at Rumford Falls there is a water fall of one hundred feet and at Rumford Falls the cost of development is cheaper than is any other power development east of the Mississippi River, excepting at Niagara; moreover, the cost was MORE THAN ONE MILLION DOLLARS, how much more was not stated and the paper quoted was not warranted in assuming that it was but a little above that sum. But on the basis stated the development at Rumford Falls presents other phases of the question which enter into the cost of development.

For example, the Rumford Falls Power Co., owing to the class of customers it serves is practically required to develop more than the amount of PRIMARY power available as a safe-guard against accidents, thereby reducing the cost per horse power installed, as against the power earning revenue, in proportion to the excess developed.

A statement that cannot successfully be controverted is that the average cost per water horse power in Maine is not less than \$150, exclusive of the cost of transmission and distribution.

As an example, the great Aziscohos Dam cost one million dollars and the amount of power available at that dam if developed for power purposes is stated to be 7,600 horse power, so that the cost without PLUMES, HEAD GATES, or ELECTRICAL EQUIPMENT is still \$131.00 per horse power.

Again the impression is given that because power may be generated comparatively cheap at one point that the consumer in paying an exorbitant price for lighting his house or for use of power. Why should not the issue be met in a fair spirit?

The writer of the article quoted must know that it costs large sums of money to transmit electric current from its source to the place of use; that it requires pole lines, transformers, service lines, meters, etc. That the distribution to the customers is one of the largest items of cost and also maintenance; that there is also a loss of power between the point of generation and the meter of the consumer; and that the labor cost is largely chargeable to the distribution system.

Why does the writer of the editorial dodge the fact that power that is sold on a constant basis of twenty-four hours in the day and on 312 or 365 days in the year, is a very different matter from power that is sold to a householder for lighting purposes or to a user of a motor for a few hours a day, and where the amount used is but a small fraction of what the service corporation is obliged to be ready to furnish at any time?

Before making statements charging persons who are developing electric power and trying to meet the needs of the public with illegally over-charging the public, why not investigate what a power factor means, what the difference is between primary and secondary which these people who develop water powers have to inform themselves before they can embark on the enterprise.

Is this paper quoted above willing to commit the people of the State of Maine to undertake a development costing millions of dollars on the amount of information possessed on this subject as shown by the editorial cited?

## Hudson Super-Six Touring Limousine

THIS new model answers every requirement of the owner who drives and who on occasion wishes to use it as a formal limousine.

But more important than the exclusiveness of its body design is its independence from the present scarcity of expert automobile repairmen.

The best mechanics out of every important repair shop have been enlisted to look after the motors of the army. They are needed to keep the aeroplanes, motor trucks, automobiles and ambulances in running order.

Those who are left don't know so much about automobiles. Every shop is at lower efficiency. Cars which call for constant service attention simply won't be as satisfactory as they have been. There will be no one to give them the needed attention.

The car that satisfies this year must be so built that it will stand upon its own design. Its construction as turned out by its builder must be final.

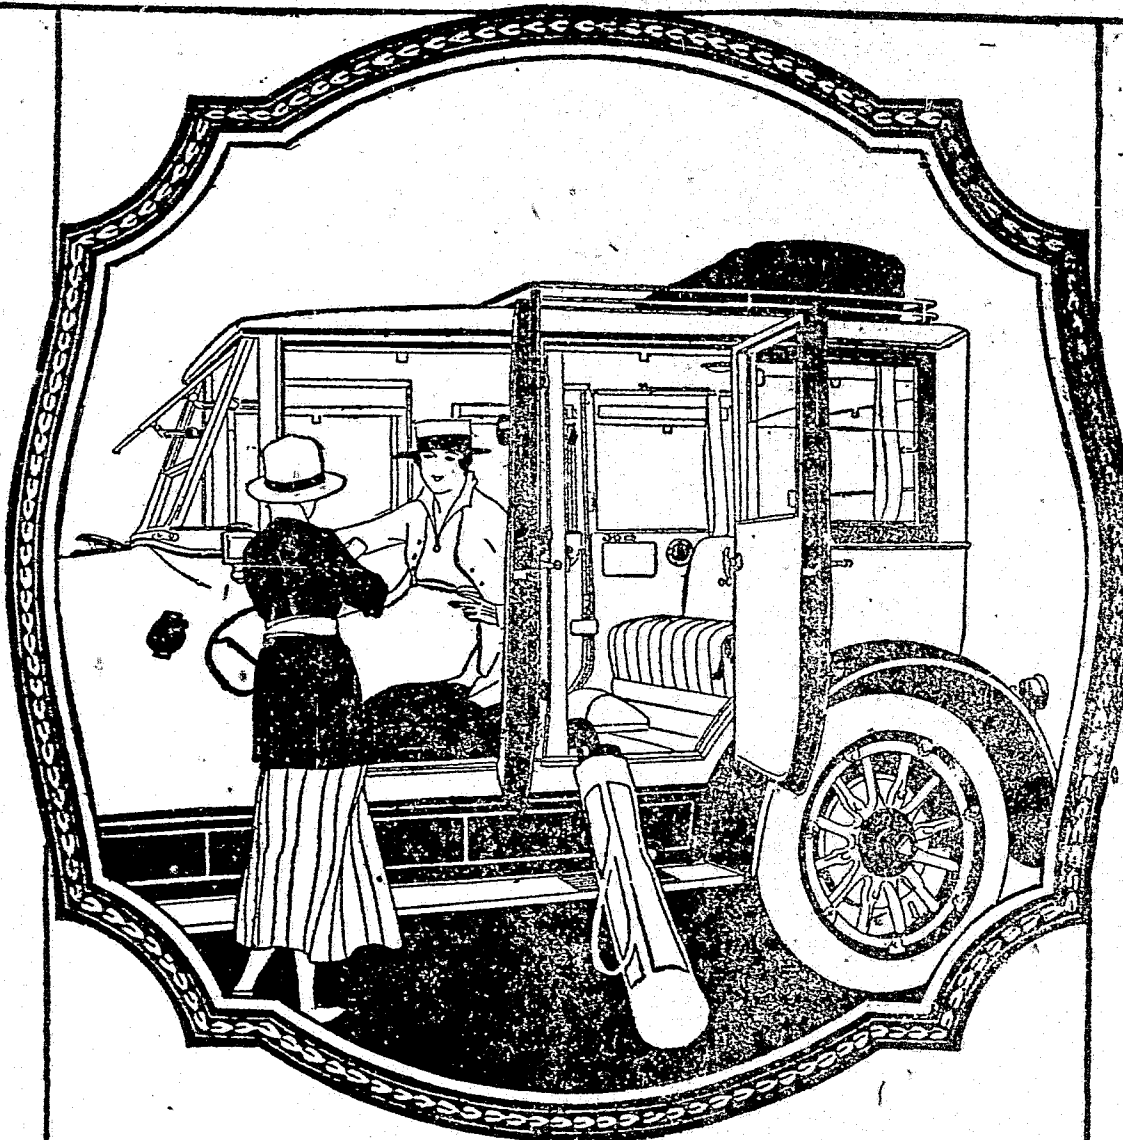

It is not a time when the buyer can safely rely upon the mechanical organization of the local dealer, however efficient and willing he has been in the past.

### 50,000 Super-Sixes Prove Their Reliability

No one doubts the position of the Hudson Super-Six. There are 50,000 in service. For two years it has far outsold any other fine car. Motorists are familiar with the character and number of its records made in every field that calls for super-endurance. Those tests did reveal limits, though far beyond those of the average car. They enabled Hudson engineers to extend the endurance of this new series.

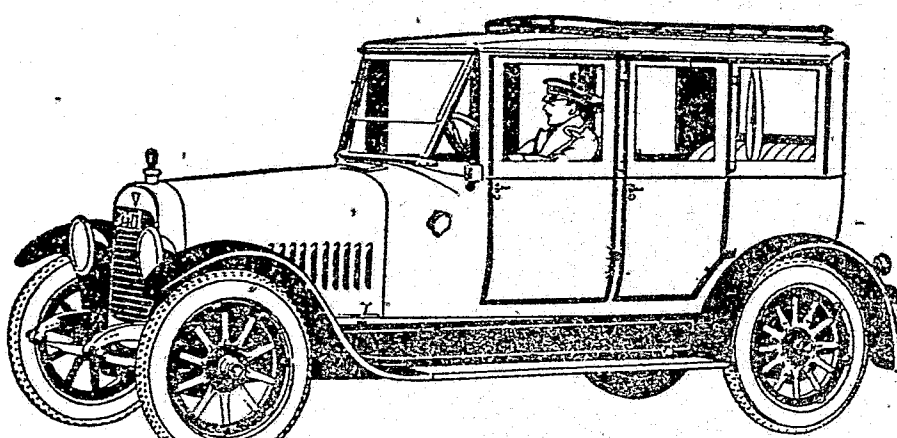

The report from thousands of earlier cars, as made by private owners, also helped in showing what was necessary to make the Super-Six what we believe the present series to be—the most enduring car in the world.

Recently he wrote to his parents, "I am more glad every day that I came, and if you could see the terrible things the Germans have done, you would be glad I came. I am here to do my bit. If I am killed, you will get an official notice and don't worry about me."

### WEST PARIS

The Memorial Day Sunday service will be held next Sunday in the Free Baptist church. Rev. H. H. Hathaway will deliver the annual sermon. This is a union service and the old soldiers and soldiers' widows are especially invited to attend in a body. Special appropriate music will be given by a mixed quartette, Mrs. D. A. Grover in charge.

The drama "Uncle Rube" played last week, Wednesday and Thursday evenings, was a grand success. A crowd and appreciative audience were kept highly interested and amused two hours each night. Everything went off beautifully and each did his part in good shape. A lot of funny parts with a good lot of good personal jokes kept the interest to an expectant pitch throughout the whole play. The first night the specialties were filled in with music by the High school orchestra. The second evening there were piano solos by Doris Field, a recitation by little Lewis Jacob Mann dressed in white sailor fashion and looked very amusing as he recited three very patriotic pieces with great applause. "Stovellmore" orchestra from Locke's Mills furnished other music and played for the dance which followed. \$90.00 was cleared for the benefit of the Red Cross.

At the last grange meeting the following program was carried out: Short readings by Mrs. Cora Stearns, Madeline Peabody, Edith Stevens and Charlie Stevens. The questions, "What are some of the causes of fire?" for men, and "What would you save first if your house was on fire?" for women. Both questions were well discussed. A package of pansy seeds raised by A. J. Abbott was given to each member present.

The Grange voted to hold their meeting in the evening through June, July and August and omit the second meeting in July and August. They also voted to give the Red Cross drama the use of their hall for the two nights on which they played. The price charged for rehearsals which began Tuesday night, winter barely covers the cost of heating, lighting and janitor expenses and as the hall is not yet out of debt it was decided that to give the hall for the last two nights was all they could afford to do, although they wish they could give it all.

Mrs. H. C. Lane entertained a number of relatives and friends during last week, among them were Paul Lane, Mr. and Mrs. Thos. Estabrook of Berlin, N. H., Mrs. C. H. Adams and Mrs. H. P. Jones of Norway and Mr. and Mrs. Calvin Yates of Lee, Mass.
